Dear Ms. Aucoin:

Thank you for the opportunity to comment on the draft revision to the State Implementation Plan (SIP) for the Lafourche Parish Section 110(a)(1) Maintenance Plan. We have reviewed the draft SIP revision in relation to the May 20, 2005, U.S. Environmental Protection Agency (EPA) maintenance plan guidance. We find the SIP revision to be well organized and consistent with this guidance.

We have organized our comments by section in the draft, and when possible, made reference to specific table and paragraph numbers within the submittal.

Ambient Air Quality Monitoring (Section 5)

1. On page 13, in the first sentence, please change the word "five" to "four". The data in Table 5-1 indicate that the area has monitored attainment for the latest four complete three-year periods: 2002, 2003, 2004, and 2005.
2. In Table 5-1 on page 13, please add "> 0.084 ppm" to the column titled *# of days*.

Appendix A Point Source Facility List

On the page that includes the list of facilities, please add another subheading such as, "Facilities that emit 100 tons or more per year of VOC or NO_x", in addition to the heading "Point Source Facility List", to clarify how the list was developed.

Once again, we appreciate the opportunity to review and comment on this draft SIP revision. If you have questions regarding any of these comments, please feel free to contact me or Ellen Belk at (214) 665-2164.

Sincerely yours,
